ANNUAL REPORTS HEARD AT MEETING

Activities Of Rush County Farmers
Association Outlined At Meeting
Held In Court House

BALLOTS WERE TO BE TAKEN

New Officers To Be Elected As Last
Order Of Business—Rep't Of
County Agent Interesting

A large delegation of farmers were here today for the annual meeting of the Rush County Farmers' association, which was held in the assembly room of the court house, at which time reports of the various officers were read, and the concluding session this afternoon was for the purpose of electing officers.

About fifty delegates were registered at noon, and every township was represented in large numbers by members. It was decided this morning that the new officers would be voted by ballot, and the nominating committee was not appointed.

The only committee appointed this morning was a delegation of farmers who will confer with officers of the I. & C. Traction company, in an effort to improve shipping conditions to the live stock market at Indianapolis.

The meeting was in charge of Fred Bell, president, who was expected to retire from that office and Charles Spencer of Richland, formerly vice-president was being mentioned frequently as the next president.

The reports of Secretary H. L. Beall and Treasurer J. W. Peters, were read this morning showing the association is in good condition in every respect.

Following President Bell's address this afternoon as the opening session, County agent D. D. Ball, made his report, which proved to be the most interesting feature on the program.

The election of officers was to be the last thing on the regular program this afternoon, and the new officers were expected to make short replies following their election by ballots of all of the delegates to the meeting.

Donald D. Ball, county agricultural agent, has compiled a statistical summary of the activities of his office and the scope of work which he has been engaged in during the year from December 1, 1921 until the first of the present month.

His report shows that he took part in 147 meetings during the year, at which there were 6,873 people in attendance. In order to discharge his duties, he traveled a total of 4,986 miles by automobile during the year.

At his office during the year a total of 8,055 people called on business, and 3157 telephone calls were answered at the office for the same period.

The county agent's report for the year also reveals the fact that he made 262 farm visits on business, and wrote 1431 letters. In addition to the letters written, he also sent out 15,682 circular letters pertaining to the agricultural interests of the Rush county farmer.

The annual report is an interesting document to read, and contains 31 typewritten pages, which are illustrated at frequent places with kodak pictures taken by the county agent while visiting the farms, and at various meetings held.

In the early part of the report, Mr. Ball sums up the work and results of the seed corn testing in the county, and also the hot water treatment of wheat.

Several pages are devoted to legumes, which includes the progress made in Rush county with the planting and harvesting of soy beans. A picture is given, showing the thresh-

SPARKS SET ROOF TO FIRE

Residence of Will R. Taylor is Only
Slightly Damaged

The residence of Will R. Taylor, 526 North Jackson street, was threatened by fire this afternoon at 12:40 o'clock, when shingles near the chimney caught fire from sparks. The blaze was extinguished without any serious damage, and the loss was only a few dollars.

The run today brought the total number of fire calls answered this year up to 60, which is a new record to be established for any single year in Rushville. The department was confused in answering the call today on account of a misunderstanding in the number of the street, as the alarm was telephoned into the department.

Three-Year-Old Child is Discov-

EXHAUSTED FROM THE COLD

Mr. and Mrs. William G. Shaffer Bel-
ieved to Have Been Dead Five
Days—Robbery is Motive

(By United Press)

Anderson, Ind., Dec. 12—Couped in an isolated farm house for five days with two corpses and all the gruesome evidence of the most brutal murder in eastern Indiana history, a three-year-old child was discovered today exhausted from lack of food and suffering from the cold.

Neighbors alarmed at the long absence of Mr. and Mrs. William G. Shaffer, wealthy farmers living near Middletown, just across the line in Henry county, went to the home.

The cry of the child greeted them faintly. In the bed they found Mrs. Shaffer, her skull crushed. Nearby was the corpse of Shaffer, his head also split open. Lying in the kitchen was a blood covered hatchet and scattered about were a purse turned wrong side out, a diamond necklace and other jewels abandoned by the murderers in their flight. An automobile belonging to Shaffer was found in Newcastle some time ago. It ap-

Santa Claus had very little to be happy about today on account of the miserable showing made by his friends, but he was hopeful because he felt that the cold wave that came swooping down on Rushville today might bring some of his friends to the stern realization that Christmas is near and that something must be done, and done immediately.

The Salvation Army kettle received such a small amount Monday that it was not reported today but will be included in the sum reported Wednesday for today.

So many friends of Santa Claus have in mind giving something to help him remember the poor little folks of Rushville, but they have procrastinated until the time is drawing near when they must act. As long as a few days remain, there is still hope, but as the days pass and shorten the time until Christmas, hope is diminishing.

SALE INDICATES BANNER CROWDS

Packed Houses Expected for Per-
formances of "The Fire Prince"
Wednesday and Thursday

DRESS REHEARSAL TONIGHT

Medolious Music and Wholesome
Comedy to Feature Story Laid in
an Ideal Land, Pantouflia

Banner crowds are indicted by the advance seat sale for both performances of "The Fire Prince," the operetta that will be given by the boys and girls glee clubs of the high school at the Graham Annex auditorium Wednesday and Thursday evenings at 8:15 p. m.

Those who bought tickets of members of the clubs or of school children are warned that they should have their seats reserved before the night of the performance they expect to attend. At previous school affairs, many have been disappointed and have been unable to get a good seat because they waited until they went to the school house to reserve their seats.

The last dress rehearsal will be held tonight. Previous rehearsals have shown the operetta running smoothly and everything points to the most entertaining school function ever given here. Those who have seen rehearsals say that no one will want to miss seeing an ideal country like Pantouflia, which is the setting for the whole play.

An irate king, Grogno, (Fred Lucas) very indignant because he has a conceited son, Prigio, the fire prince (Keith Clark), shows that he can still make himself ridiculous if he tries to dance and appear as a young man. The little spat between him and the queen, Isadora, (Ruth Schaeffer,) is said to provide some wholesome comedy. The Spanish ambassador (Robert Gantner) presents some good comedy when he presumes to win the hand of one of the royal nieces, Molinda, played by Margaret Guffin. It all ends well when Prigio finally kills the fire drake, which has seemed to have killed his two brothers.

Some very beautiful melodies are included in the incidental music of the operetta, none of which is any prettier than "When The Love Wind Blows," by Prigio, and "If It Be True," by the same character.

No operetta would be complete, it is believed, without good full choruses, and those who have seen some of the rehearsals declare that the choruses of "The Fire Prince" are

ROLL CALL BRINGS IN SUM OF \$1,474

Increase of \$300 Over Last Year's
Red Cross Membership Campaign,
Incomplete Report Shows

MORE MONEY IS EXPECTED

With some township reports incomplete, the sum of \$1,474 has been raised in the annual Roll Call Campaign of the Rush county chapter of the American Red Cross. Of this sum \$39.98 was contributions and the remainder was for memberships. This is an increase of approximately \$300 over last year's Roll Call, when the sum of \$1,190 was raised, of which \$32 was in cash gifts.

Rushville city leads this year with memberships and contributions amounting to \$680.50. The increase over last year's Roll Call is largely due to a better response from the townships outside Rushville. Richland, for example, raised \$65.00 this year as compared with nothing last year. Walker was next after Rushville with \$152.00. Other townships have reported the following sums:

Anderson, \$81.00; Rushville (outside the city) \$18.00; Jackson, \$17.00; Center, \$7.00; Washington, \$51.00; Union, \$32.00; Noble \$49.00; Ripley, \$91.00; Posey, \$87.00; and Orange \$55.50.

FAMOUS MERCHANT SUCCUMBS TODAY

John Wanamaker Dies at His Home
in Philadelphia, Place of His
Birth at Age of 84 Years

END COMES PEACEFULLY

Starting With Small Clothing Store
at Outbreak of Civil War, Wan-
amaker Soon Became Wealthy

(By United Press)

Philadelphia, Dec. 12—John Wanamaker died at his home here today at the age of eighty-four years.

A bulletin issued at Wanamaker's residence shortly after 8 o'clock read:

"Mr. Wanamaker died peacefully at 8 a. m.

(Signed)

"W. E. Quicksall, M. D.

"Harvey Shoemaker, M. D.

"Alfred Stengel, M. D."

Wanamaker, founder of the stores bearing his name in New York and Philadelphia, and former postmaster general, had been ill for several weeks. During the last few days, however, he had taken a turn for the better, and the end came suddenly after a relapse.

Wanamaker, one of the pioneers of America, was born July 15, 1837 in the county of Philadelphia a little more than 17 years before its consolidation into the city. His father, John Nelson Wanamaker, was a bricklayer, and his grandfather was a farmer. Their ancestors came to America at the time of the landing of William Penn. His mother was Elizabeth Kochersperger, whose ancestors were the Hugonots of France. Wanamaker attended public school until he was 14 years old and then obtained employment in a Philadelphia book store as an errand boy at \$1.25 a week.

Sometime later his family moved to Kosciusko county Indiana but returned to Philadelphia in 1856.

Anxious to engage in business Wanamaker obtained a position in a retail clothing store at \$1.50 a week from which he saved \$100. This was the foundation of his fortune.

Confinement in the store caused ill-health and in 1858 Wanamaker went to Minnesota. His health im-

FORMER RUSHVILLE MAN IS SUCCESSFUL

Will A. Palmer, Who Left Here in
1900, is Vice-President and Man-
ager of Auto Body Corporation

FORMERLY A WOOD TURNER

Many former Rushville friends of Will A. Palmer, who left Rushville 22 years ago, will be glad to hear of his success in the east. He will be remembered here as a wood turner at Readle and Warfield's table factory, where he was employed from 1889 to 1900.

But by dint of hard labor, Mr. Palmer has moved on in the business world and is now vice-president and general manager of the Peerless Body Corporation of Austin, Pennsylvania, builders of cabs and commercial bodies for Ford cars.

Mrs. Palmer was a former Arlington girl, and two years following her marriage to Mr. Palmer, in 1898 they moved east. Mr. Palmer got his first knowledge as a mechanic at Warfield and Wilson's, but his travels gave him the practical experience that equipped him for an executive position. In addition to acting as general manager, Mr. Palmer also owns 80 shares of stock in the concern.

Mr. and Mrs. Palmer have five children, the oldest of whom Kathleen, has taught school at Osgood, Ind., for the past five years. The next daughter, Florence, is attending Buffalo University, Buffalo, N. Y., and Jeannette is in high school. The other members of the family are William, Jr., 11, and Gayle, 3. All of the children, as well as Mr. Palmer are musicians.

COLDEST WEATHER OF WINTER COMING

Below-Zero Temperatures May Be
Expected Tonight, Forecaster
Says, Following Drop Today

18 ABOVE THIS MORNING

Cold Wave Sweeps Down Into Unit-
ed States From Canada and Moves
Rapidly Southward

The coldest weather of the winter is predicted tonight, according to the weather report, which says that in this area the mercury tonight may drop as low as five below zero, and that the cold weather will continue for a few days.

The temperature took a drop early this morning, reached 18 degrees above at nine o'clock, and all during the day the mercury hovered in that vicinity. A bitter west wind also added to the cold weather. The cold spell struck Illinois last night, with temperatures of 4 above at Peoria and 8 above zero at Springfield.

Grips North Half Of U. S.

Washington, Dec. 12.—The entire north half of the United States tonight will be in the grip of the first severe cold wave of the season, the weather bureau announced today.

Extremely low temperatures also are predicted for some of the southern states.

The cold wave swept down into the United States from Canada early yesterday and is moving rapidly eastward and southeastward, resulting in snow in many regions and extremely low temperatures. It was sweeping across Ohio and western Pennsylvania today and will strike the Atlantic seaboard today turning expected rain into snow.

Lake Vessels Battle Gale

Chicago, Dec. 12.—Two Lake vessels, long overdue, battled with the worst gale of the winter on Lake Michigan today.

The Alabama, Goodrich line, from Grand Havens to Chicago, due here at 4 a. m. had not docked this morning. Officials of the line declared they had no fears for her safety as she was a steel boat and able to weather the worst lake storms.

The City of Grand Rapids, Graham and Morton line, Chicago to Benton Harbor Mich., had failed to arrive early today.

TO BRING AN ADJUSTMENT

American Government Showing More
Interest in Europe's Affair

Washington, Dec. 12.—The American government is actively trying to bring about adjustment of the serious European situation, it was declared on high authority at the White House today.

This statement was made on the revelation that President Harding and his cabinet at their meeting today had an extensive discussion on the Old World affairs.

This probably involved the failure of the London conference of European premiers.

A satisfactory readjustment of affairs abroad included the German reparation difficulty which is most vital in the world, the statement said.

INTEREST SHOWN IN BABY TESTS

Better Babies Conference And Child
Hygiene Courses in County Are
Being Well Attended

TODAY SPENT IN MANILLA

State Board of Health Workers Will
Move On To Arlington Tonight
For Program At Church

The Better Babies conference and Child Hygiene courses, which are now being held in Rush county under the direction of the state board of health, are being well attended, and the examination of babies each day shows considerable interest in the work.

The examining physicians and assistants of the state department were today working in Manilla examining babies at the Methodist church in that place, and the meeting for the public on health work, was held in the school auditorium last night in Manilla.

The meeting last night was attended by 225 people, who heard the addresses, and witnessed the motion pictures which were presented. The meeting in Walker township is regarded as one of the best, which is probably due to the publicity given the affair by posters made by school children in Manilla.

At New Salem on Monday there were 20 babies examined, and the meeting on Friday night at New Salem was well attended, and a musical program was given by the school and teachers.

The conference in this county opened at Milroy with the examination of babies, and on the first day there were 17 babies examined and on the second day there were 21 babies examined at Milroy, which included three townships Richland Orange and Anderson.

The state workers will move on to Arlington tonight where a program will be given at the Methodist church tonight, and all day tomorrow the babies of Posey township will be examined. Parents who have babies under the age of seven, are urged to bring them in for examination, as the work is absolutely free.

The next meetings will be in Carthage, which will open on Wednesday night, with the usual lecture and pictures, and the babies will be examined on the day following.

CITY WINS JUDGMENT IN THE THIRD TRIAL

Awarded Sum Of \$20.46 Against
Max Tarplee By Jury Which Fol-
lows Court's Instructions

LIGHT POST WAS DAMAGED

The City of Rushville, plaintiffs for the third time in the damage suit against Max Tarplee, won out in their suit today in the circuit court when the jury awarded judgement against the defendant for \$20.46, according to the instructions of the court, which were brief, and set out the fact that the city should recover judgement for that amount.

The case today did not require much trouble in getting a jury, although it had been up in court for several months, and the first twelve men that filled the jury box this morning, were selected to try the case.

The jury was composed of the following men: George Seeley, Homer Cole, Fent O. Browning, Clem Gdwell, Harry McFatrige, R. S. Davis Ed. L. Reeves, Samuel Mathews, Jeff Leisure, Gilbert Cooley, Will Morris and Jake Wynn.

The trial today was the third attempt by the city to collect judgement on a broken pedestal light post which was struck by a machine driven by the defendant, on South Main street. At the two former trials, the city lost.

MOVE TO RUSHVILLE

Mr. and Mrs. Fred Lightfoot and family have moved to this city from their home northeast of the city to spend the winter.

MOUNTAIN FASTNESS SEARCHED FOR AIRMEN

Little Hope Held Out That Col. Marshall And Lieut. Webber Will Be Found Alive

MISSING SINCE THURSDAY

El Paso, Texas, Dec. 12.—The fastness of the Santa Rita mountains of Arizona were searched today for Colonel Francis Marshall and Lieutenant Charles L. Webber, who disappeared in an airplane last Thursday.

Although officers believed they were on the right track in their quest for the missing airmen, little hope was held that they would be found alive.

Four army planes were despatched from Tucson, Arizona, from whence the search is being directed, following receipt there of information that a rural mail carrier had seen the plane passing over the section that lies between Twin Buttes and Saharita, Ariz., according to a radio message received at Fort Bliss near here.

Col. E. B. Winenas, in charge of the search, wirelessed that he was convinced the plane which the mail carrier said was heading in the direction of the Santa Rita mountains, was the one containing Col. Marshall and Lieutenant Webber.

In addition to the airplanes, a troop of cavalry has been sent into the mountains.

Officers at Fort Bliss, basing their deductions on reports from Col. Winenas, believed today the lost men were either dead or seriously wounded in the mountains; prisoners of Mexican bandits; or among friendly natives in some out of the way community in the hills of Mexico.

ANNUAL REPORTS HEARD AT MEETING

ing of soy beans in this county which is indeed a new scene for Rush county.

Mr. Ball in his report, next takes up live stock projects, which include winter hog feeding, hogging-down soy beans and corn, and tuberculosis eradication. Next in order are the poultry projects, in which he sums up the results and benefits of poultry culling, of which he had many demonstrations during the season.

Space in the report also is given to the club projects in the county, which include the following branches, the Swine Breeding club and the Girl's Club work. Marketing projects including the educational value of the wool pool to the growers, and the live stock market reporting service, are described in his report.

A review of the County Products show, which was held in Rushville

last year, December 5 to 8, is also given in the report to show the activities of the local farmers and the good community spirit displayed.

Mr. Ball in his report also reviews the farmers' institutes held during the year and also the result of the five acre corn growing contest.

The report closed with a review of the activities of D. W. Nolan, who sold medicine for hog ailments throughout the county and finally left when the county farmers association, working through the county agent, exposed him and his methods. The report recalled that the publicity given to Nolan's alleged questionable practices resulted in him filing an affidavit against the county agent, charging criminal libel, which became a boomerang and in the end, three charges were preferred against Nolan, but he has never been placed on trial.

The charge against the county agent was nollied in the court. The report estimated that driving Nolan from the county saved Rush county farmers \$10,000, and stated that it had been reported that Nolan made that statement that the fight made against him in Rush county cost him \$40,000.

So charming was the singing, many expressed a desire to have her return.

Local talent assisted in the rendering of the program. Miss Mileda Bundrant gave a reading, Miss Fannie Mae Ramey acting as her accompanist.

DEFRAUD NOT: For this is
the will of God—that no man de-
fraud his brother in any manner—
1 Thessalonians 4: 3, 4.

Pulling the Spangled Leg

Will the campaign of foreign propa-
ganda never cease?

We are severely criticised because
we do not open our money bags and
pour their contents into the bank-
rupt treasuries of Europe.

We are importuned and wheedled
to cancel the billions of war debts
due us from our late allies.

We are charged with deserting
them because we are not willing to
embroil ourselves in the tangled af-
fairs of the nations across the seas.

We are denounced as war profit-
ers because we sold to the late vic-
tors in the war the munitions and
supplies with which they prosecuted
that war—and they were sold upon
the insistent plea of those nations.

We are told that it is our duty to

come to the aid of civilization—but
with gold in our hands.

And now comes the Greek nation
with a demand that we let down
our immigration bars and open our
doors to a million and a half of
Greek refugees from Constantinople
and Asia Minor.

God forbid!

It is because of the presence of
so many foreign malcontents in this
country that we are in a constant
state of internal turmoil, with the
shadow of bolshevistic revolution
and plunder always hovering as a
menace in the background.

Admit a million and a half direct
from the hotbed of intrigue and fan-
aticism?

Never!

Men and women of foreign birth
who have come to us in the past and
have proven themselves to be good
citizens are welcome, and we extend
to them the hand of fellowship and
good will.

But they constitute a sufficiency.

If Greece needs aid in feeding her
own people who are forced by cir-
cumstances to return to their native
land, we will extend that aid in the
same manner that we have been do-
ing it in various countries in the
past—through the Red Cross and
other such agencies.

No one can charge the United
States with being niggardly in feed-
ing and clothing the hungry, and
naked of foreign lands. Even now
our food and our clothing and our
gold are being sent abroad in great
quantities for this very purpose, and
hundreds of thousands are being
saved from starvation.

This we are glad to do, because
it is an act of humanity.

But we are eternally opposed to
the wholesale admission of a horde
of refugees who have been reared
amidst blood, butchery and trickery.
That would be an act of insanity.

Let the Greek nation house its
own refugees, and if necessary we
will aid in feeding and clothing
them until they can become self-
sustaining.

But no more!

The volcano of discontent is be-
coming hot under our feet as it is.

We will not knowingly kick off the
lid.

ERECT MONUMENT OVERSEAS

MISSOURI HONORS HER SOLDIER DEAD IN FRANCE

Photo shows the State Memorial, designed and executed by Miss
Nancy C. Hahn, of St. Louis, being unveiled at Cheppy, France. The
dedication took place November 6, on the little hill overlooking the
ruins of Cheppy-en-Argonne, where so many of the boys of the 35th
and 89th Divisions were killed in charging the machine gun nests on
these heights. On this very spot a deadly machine gun nest was wiped
out during the action. Missouri is the first State to erect its own
memorial in France.

Big "Busts" of 1922 Sport Year

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Dec. 12.—While the closing year has produced many notable achievements in sports, it was more famous for its developments of first class, "busts". Favorites had a terrible year and some of the best of all the upsets were reserved for a final smack during the football season.

It would be difficult to classify the biggest bust of the year, but Georges Carpentier was not the least of them and neither was Babe Ruth.

Perhaps Ruth was the outstanding failure of the year, because in his downfall there was not the element of chance and luck that was behind the first of Battling Siki when it swung against the jaw of the handsome Carpentier.

The Babe was a bust and a terrible one, through faults particularly and peculiarly his own.

The real prize bust of baseball, however, were the New York Yanks in the world series. Ruth with his own little reversal of form helped the American League champions to lose four straight games to the Giants and thereby provide a surprise from which many pocketbooks have not yet recovered.

Morvich, the champion two-year old of 1921, was the big bust of the turf. The Block youngster won the Kentucky Derby and conducted himself in the early season as if the deeds of Man-o'-War were to be shoved back to second place in the books. He's in the stud now with the classic label of a canine.

The reversal of form in Morvich had a strange effect on the Block stable, which won twelve out of thirteen races of 1921 and lost twelve out of thirteen in 1922.

Yale's football team was the big explosion of a season of football that was one big upset. The startling failure of the Yale team to live up to expectations was one of the big

outstanding developments of the season.

Form went far wide of the mark in the east, but Iowa, in winning a tie for the Western Conference championship, lived up to advance notices and with the exception of the game with Southern California, the University of California eleven scored as many points as it was expected.

On her home courts, Mrs. Molla Mallory was the tennis queen, but she was a prominent failure when she tried to defeat Mlle. Suzanne Lenglen, the French girl in the British championship.

Bill Tilden's big bust was a bust at the critics who predicted and bet that little Bill Johnson would take the championship from him.

As a whole the British players were the fizzes of golf and Gene Sarazen was the sensation of the year. Walter Hagen upset a lot of good predictions when he won the British open championship and Sarazen surprised every one when he won the American open title, the professional championship and when he beat Hagen in a match for the unofficial world's championship.

Yale's surprises did not all consist in being defeated. The Yale varsity eight produced one of the big surprises of the early summer when it won a brilliant race from the Harvard crew.

The outstanding jolt on the water was the performance of the Washington crew which came from the coast to the Hudson and finished second behind the Navy, one of the greatest combinations that ever sat in a shell.

FAMOUS MERCHANT SUCCUMBS TODAY

Continued From Page One
proved, and he returned to Philadelphia the same year, when he was elected the first paid secretary of the Y. M. C. A., which organization was then in its infancy.

Upon the outbreak of the Civil war he sought to enlist in the army but was refused on account of his physical condition.

On April 11, 1861, the day Fort Sumner was cannonaded, he opened a small clothing store. War paralyzed trade but by remarkable business tact, Wanamaker brought his business through the turbulent times and at the close of the war he was a wealthy man.

As years advanced Wanamaker became more prominent and he widened his mercantile operations. Outside of business pursuits he engaged in religious and social work. He organized the famous Bethany Sunday school with 27 members and it now numbers more than 3,000. He was one of the originators of the "Christian commission" during the Civil war and was chairman of the general relief committee during the Irish famine. He served efficiently on the finance committee of the Centennial exposition of 1876.

Wanamaker was the founder of the First Penny saving bank, helped to start numerous hospitals, founded Wanamaker's institute of industries and the Bethany dispensary and had erected Y. M. C. A., and college buildings in India, China, Japan and Korea. In 1899 he was decorated with the legion of honor by the French government and in November 1914, he chartered two steamships and sent food to the starving Belgians. Wanamaker nominated Fairbanks for vice president at the Republican national convention in 1916 and in 1921 celebrated 60 years of business life. As father of the Centennial exposition, he suggested the sesquicentennial exposition in 1916 and in 1921 celebrated anniversary of the declaration of Independence.

Wanamaker was taken ill about two months ago while staying at "Lydenhurst", his summer estate near Jenkintown. He was brought to his home in Philadelphia so as to be nearer medical attention.

Though his malady was diagnosed as a severe "cold" his advanced age and its long duration made it serious.

ILLINOIS VOTES ON A NEW CONSTITUTION

Wrapped In Furs And Mufflers, Voters Go To Polls As Thermometer Hovers Around Zero

BOTH CAMPS CLAIM VICTORY

Chicago, Dec. 12.—Illinois voters went to the polls today wrapped in furs and mufflers to decide whether they should have a new state constitution or abide by the old one.

With the thermometer hovering around zero early morning voters were few and indications were that a light vote would be cast.

Both camps claimed victory by majorities of 100,000 or more.

The anti's claimed Cooks county would vote against the proposed draft by a majority of at least 150,000 which would offset the out-state vote in favor of the measure.

Interest in the ballot was general in all parts of the state and probably a tremendous vote would have been cast if the cold wave had not enveloped the state.

The question of taxes was the paramount issue. The new constitution provides a state income tax. Bible reading in the public schools was also the subject of bitter opposition.

The anti's launched an eleventh hour drive to close the campaign in Chicago. Scores of speakers addressed crowds last night and hand bills were distributed by thousands.

Bitter factional feeling was started when those in favor of the new draft claimed that Chicago policemen were actively engaged in an effort to defet it.

SPORT CHATTER

Los Angeles, — Charlie Paddock, speed king, has announced that he will not hang up his shoes for a while yet and will be on hand when the spring season opens. He has enrolled in the University of Southern California which seems to refute the rumor that he was planning to accept an invitation to compete in some games in New Zealand.

New York.—Whatever changes may be made in Columbia's football coaching staff next year, Johnny Hiesman, Penn mentor, is not coming to the heights, he declared emphatically in a telegram.

Columbus, Ohio.—Bonis Petroff, junior medic, of Toledo was chosen captain of the 1923 Ohio State university football team.

South Bend, Ind.—A committee headed by May Seibert has been appointed to work out plans for a stadium at Notre Dame to seat 35,000 to 40,000 people.

Philadelphia.—Hugh Bezdeck will not manage the Philadelphia National League baseball team next season. The mentor of the Nittany Lions and Penn. State college has wired President Baker of the Quakers saying "I have decided to remain at college work. It is a question of ideal with me." It is now rumored that Baker will attempt to sign "Art" Fletcher as manager for 1923.

New York.—Ban Johnson, head of the American League is still determined that the annual meeting of his organization shall be held in Chicago December 13 and not here as Judge Landis ruled. The Yankees owners, Colonels Ruppert and Hus-

ton, received word they would be expected in Chicago.

New York.—America will send a team of fencers to Havana for an international match early in 1923.

New York. — Rivalry for the crown of tennis queen of the world between Molla Mallory and Suzanne Lenglen may be resumed on the courts of the French Riviera early in the spring. The American champion who lost to the French girl at Wimbledon, after defeating her decisively here plans to sail in February and will try to arrange a "rubber" match with Mlle. Lenglen.

New Haven, Conn.—Bill Mallory, one of the greatest defensive backs in the east, will captain Yale's 1923 football team. Mallory, who hails from Memphis, Tenn., is one of the Blue's best all-around athletes catcher on the baseball team and a crack hockey player. His election was unanimous.

GREWSOME FIND ON AN ISOLATED FARM

parently had been used in the escape. The child's clothing was stained

with blood and the walls were bespattered. The only water it had to drink during its long imprisonment in the death house was some that had been left on the kitchen table in a bucket and some dirty water in a wash bowl.

The baby had eaten some morsels from the kitchen cabinet but they were soon exhausted. The child was a nephew of Mrs. Shaffer.

Friends of the murdered couple claim that Mrs. Shaffer had \$15,000 worth of diamonds in the house. Many of these were taken and no money was found about the place, leading authorities to believe that robbery was the motive.

Some of the jewels were left in the house, authorities believed, because they might lead to identification.

The last time the Shaffers were seen was Wednesday night when they drove to Muncie to visit their brother. They brought the child home with them at that time.

Both formerly lived in Muncie where Shaffer was a bartender. Mrs. Shaffer had been in Muncie police court many times before her marriage, on a charge of operating a resort.

FIRST EVIDENCE IS HEARD

House Judiciary Committee Takes Testimony in Impeachment Case

Washington, Dec. 12.—Sitting as the first court of inquiry, the house judiciary committee met today to start taking testimony on the resolution of impeachment brought against Attorney General Daugherty by Representative Keller, Republican of Minnesota.

Indications were that proceedings will start off with another row between the committee and Keller. The committee wants to take up Keller's charges in the order they were made and to hear testimony first on the allegation that Daugherty has refused to punish violators of the anti-trust laws. Keller was expected to insist that attention first be given his charge that Daugherty has appointed "unfit" persons to high office.

HORSEPLAY MARKS

EVE OF THE SESSION

Majority Members Of Legislature Jockeying For Speakership As Democrats Meet In Caucus

WILL NAME HOUSE SPEAKER

Indianapolis, Ind., Dec. 12.—Political horseplay marks the eve of the biennial session of the legislature, which convenes next month.

Republican members of the house of representatives played politics among themselves here today, jockeying for speakership, while the democratic minority met at the call of State Chairman Walter Chambers to reaffirm their party platform pledges in vain. One can be carried out because republicans control both senate and house.

Welfare of party policies and the ship of state were forgotten temporarily in a mad scramble for the speaker's chair. The republicans holding a narrow majority of four votes will elect the presiding officer. The house is composed of 52 republicans and 48 democrats.

The speaker will send all bills to committees in a weeding-out process and by this manner can wield much influence. Who will be chosen was as much in doubt as when the representatives met with Governor McCray in a love feast and harmony meeting yesterday.

Of 52 potential candidates any of whom might spring a surprise party at the last minute, five were actively campaigning for the job and three were mentioned as possibilities. The aspirants are: Pittenger of Delaware county; Phillips of Fayette county; Morgan of Henry county; Day of Lake county; and Ahlgren of Lake county.

Another Record Broken

Loren (Dickey) Dearing of Homer is reported to have made a better record at corn husking than any of those that have been reported this fall. He is given credit for having shucked 2,487 bushels in fifteen straight days, not counting Sundays.

COUNTY AGENTS WILL HELP SEAL CAMPAIGN

T. A. Coleman Urges All County Agents To Aid In Scope Of Work By Fighting Tuberculosis

IS BENEFIT TO MAN KIND

Lafayette, Ind., Dec., 12.—T. A. Coleman, of Purdue University, County Agent leader for Indiana, in a letter to Indiana county agents today appeals to them to broaden the scope of their work against tuberculosis. Every county agent, he says should support the Christmas Seal Campaign. In his letter, Mr. Coleman says:

"Your interests in the eradication of tuberculosis among the people of the state is manifesting itself in a most wholesome way in that your fight is directed toward the source of infection, that is bovine tuberculosis, and is recognized as most effective. There are other activities, however that should accompany this work that you have under way. One of these is through the sale of Christmas seals and in other ways spreading information as to best methods of eradicating or preventing its development.

"Anything you can do to further this work in your county will be of great benefit to your people and will be greatly appreciated."

This is the home farm of John J. This land has not been rented, but has been operated by the owner for a long term of years.

Full possession of the remainder of the land will be given January 1, 1923.

TERMS OF SALE—The purchaser is to have the privilege of paying one-half cash and the remainder in one year, deferred payments to bear interest at the rate of six per cent (6%) per annum and secured by a first mortgage on the real estate sold, or the purchaser is to have the privilege of paying all of said purchase money in cash. Said land will positively be sold to the highest bidder as it is necessary to sell the same to carry out the provisions of the deed under which this sale is authorized. AMUSEMENTS

Alma Rubens At Princess

Proving itself to be one of the most vigorous photoplays seen here in many months, "The Valley of Silent Men", a Cosmopolitan creation for Paramount, featuring Alma Rubens, was greeted with marked demonstrations of approval by a large assemblage last night. It was filmed in the Rocky Mountains of Canada, in the precise spot described by James Oliver Curwood in his celebrated novel upon which the picture is based.

Frank Borzage, the creator of "Humoresque" and other notable picture productions, has displayed no inconsiderable skill in his latest effort. Miss Rubens, appearing as a young Canadian girl who loves a valiant corporal of the Canadian mounted police when he, believing himself to be dying, confesses to murder of which he is innocent in order to shield her brother, has a role of signal dramatic force in the rendition of which her talents are admirably displayed. Her support generally is excellent, the characterizations of Lew Cody, Joe King,

George Nash and others, being all that could be asked for.

Alice Calhoun At Mystic

"The Girl in His Room," which will be shown at the Mystic Theatre again today is a production based on a play by J. Raleigh Davies which shows one of life's queer little twists.

Alice Calhoun is cast as a young girl whose mother dies at her birth and whose father refuses to see her. Later he repents and sends her to boarding school. He appears as the agent of her father whom she has never seen. He provides a home by being untrue to a trust. Several complications arise which result in the young girl finding not only happiness for life but a father as well. The action takes place for the most part in the city with a few scenes in a boarding school and a few others in the open.

Alice Calhoun is supported by Warner Baxter, Robert Anderson, Faye O'Neil and Eve Southern. "The Girl in His Room" was directed by Edward Jose.

Raleigh High School Girl Is Second in Essay Contest

Bertha Louise Laughlin, a freshman in the Raleigh high school, who won second in the Rush County Farmers association essay contest for high school students, wrote as follows on the subject, "Why Dad Belongs to The Farm Bureau":

My Dad joined the Farm Bureau because of the co-operation with other farmers it gives him.

A Farmer's Federation is an organization which protects the producers, consumer and farmer. This federation protects these participants in such a way that it preserves the soil, increases the yield per acre and establishes better markets for all kinds of farm products. It gives the farmer a chance to make a profit on every thing he sells. This federation has encouraged and brought about the use of improved farm machinery which decreases farmers' laboring hours. It has, and is still helping to better and increase the methods of transportation. It is bringing forth better bred stock and ways to care for them, such as, more convenient and comfortable living quarters which also helps to decrease farmers' laboring hours. The convenience of the living quarters for the stock makes farmers' laboring hours more pleasurable. This federation is reducing the shipping rates for stock and grain and has accomplished standard prices of farmers' necessities. It has increased the rapid progress and interest in co-operative live stock, in

graining and marketing. This federation is promoting better conditions for the farmer. Dad thinks he never spent a more profitable five-dollars (\$5) in his life.

MOUNTAIN FASTNESS SEARCHED FOR AIRMEN

Little Hope Held Out That Col. Marshall And Lieut. Webber Will Be Found Alive

MISSING SINCE THURSDAY

El Paso, Texas, Dec. 12.—The fastness of the Santa Rita mountains of Arizona were searched today for Colonel Francis Marshall and Lieutenant Charles L. Webber, who disappeared in an airplane last Thursday.

Although officers believed they were on the right track in their quest for the missing airmen, little hope was held that they would be found alive.

Four army planes were despatched from Tucson, Arizona, from whence the search is being directed, following receipt there of information that a rural mail carrier had seen the plane passing over the section that lies between Twin Buttes and Sahurita, Ariz., according to a radio message received at Fort Bliss near here.

Col. E. B. Winenas, in charge of the search, wireless that he was convinced the plane which the mail carrier said was heading in the direction of the Santa Rita mountains, was the one containing Col. Marshall and Lieutenant Webber.

In addition to the airplanes, a troop of cavalry has been sent into the mountains.

Officers at Fort Bliss, basing their deductions on reports from Col. Winenas, believed today the lost men were either dead or seriously wounded in the mountains; prisoners of Mexican bandits; or among friendly natives in some out of the way community in the hills of Mexico.

ANNUAL REPORTS

HEARD AT MEETING

Continued from Page One
ing of soy beans in this county which is indeed a new scene for Rush county.

Mr. Ball in his report, next takes up live stock projects, which include winter hog feeding, hogging-down soy beans and corn, and tuberculosis eradication. Next in order are the poultry projects, in which he sums up the results and benefits of poultry culling, of which he had many demonstrations during the season.

Space in the report also is given to the club projects in the county, which include the following branches, the Swine Breeding Club and the Girl's Club work. Marketing projects including the educational value of the wool pool to the growers, and the live stock market reporting service, are described in his report.

A review of the County Products show, which was held in Rushville

last year, December 5 to 8, is also given in the report to show the activities of the local farmers and the good community spirit displayed.

Mr. Ball in his report also reviews the farmers' institutes held during the year and also the result of the five acre corn growing contest.

The report closed with a review of the activities of D. W. Nolan, who sold medicine for hog ailments throughout the county and finally left when the county farmers association, working through the county agent, exposed him and his methods. The report recalled that the publicity given to Nolan's alleged questionable practices resulted in him filing an affidavit against the county agent, charging criminal libel, which became a boomerang and in the end, three charges were preferred against Nolan, but he has never been placed on trial.

The charge against the county agent was nollied in the court. The report estimated that driving Nolan from the county saved Rush county farmers \$10,000, and stated that it had been reported that Nolan made that statement that the fight made against him in Rush county cost him \$40,000.

FIRST EVIDENCE IS HEARD

House Judiciary Committee Takes Testimony in Impeachment Case

Washington, Dec. 12—Sitting as the first court of inquiry, the house judiciary committee met today to start taking testimony on the resolution of impeachment brought against Attorney General Daugherty by Representative Keller, Republican of Minnesota.

Indications were that proceedings will start off with another row between the committee and Keller. The committee wants to take up Keller's charges in the order they were made and to hear testimony first on the allegation that Daugherty has refused to punish violators of the anti-trust laws. Keller was expected to insist that attention first be given his charge that Daugherty has appointed "unfit" persons to high office.

HORSEPLAY MARKS EVE OF THE SESSION

Majority Members Of Legislature Jockeying For Speakership As Democrats Meet In Caucus

WILL NAME HOUSE SPEAKER

Indianapolis, Ind., Dec. 12—Political horseplay marks the eve of the biennial session of the legislature, which convenes next month.

Republican members of the house of representatives played politics among themselves here today, jockeying for speakership, while the democratic minority met at the call of State Chairman Walter Chambers to reaffirm their party platform pledges in vain. One can be carried out because republicans control both senate and house.

Welfare of party policies and the ship of state were forgotten temporarily in a mad scramble for the speaker's chair. The republicans holding a narrow majority of four votes will elect the presiding officer. The house is composed of 52 republicans and 48 democrats.

The speaker will send all bills to committees in a weeding-out process and, by this manner can wield much influence. Who will be chosen was as much in doubt as when the representatives met with Governor McCray in a love feast and harmony meeting yesterday.

Of 52 potential candidates any of whom might spring a surprise party at the last minute, five were actively campaigning for the job and three were mentioned as possibilities. The aspirants are: Pittenger of Delaware county; Phillips of Fayette county; Morgan of Henry county; Day of Lake county; and Ahlgren of Lake county.

Another Record Broken

Loren (Dickey) Dearing of Homer is reported to have made a better record at corn husking than any of those that have been reported this fall. He is given credit for having shucked 2,487 bushels in fifteen straight days, not counting Sundays.
